

# Kant-Slam®

## HYDRAULIC GATE & DOOR CLOSER KS-950

The Kant-Slam Gate Closer firmly closes gates and doors without slamming!

The Kant-Slam is excellent for any self-closing door requirement. It can be used on virtually any type of fencing material for residential, commercial or secured access applications. The Kant-Slam also meets self-closing swimming pool enclosure requirements!

The Kant-Slam can't be beat when it comes to closing heavy ornamental iron gates.

In 1927, the Kant-Slam was designed to close wooden gates, which were prevalent in that era.

Chain link is popular for many different commercial and residential applications.

The Kant-Slam is based on an exclusive toggle arrangement of 4 levers and a hydraulic cylinder. The levers open as the gate opens, and they are closed by 2 high-tension springs. The cylinder regulates closing speed.

- Infinite closing speed adjustment
- Closes gates and doors that weigh up to 150 lbs.
- Overall Dimensions: 7 $\frac{1}{2}$ "H x 13"W x 2 $\frac{1}{2}$ "D
- Mounting bracket measures 3 $\frac{1}{4}$ " x 1 $\frac{3}{4}$ "
- All Steel Construction
- Black low gloss enamel finish
- Weighs 6 lbs (3 kg)
- Must be mounted on the opening side of the gate or door
